MEMORANDUM FOR RECORD.

SUBJECT: Library of Congress Paper on National Defense  
in the Soviet Union.

1. The subject paper was referred to each of the four intelligence agencies. Comments by A-2, G-2 and ONI are attached. Verbal approval was given by a representative of the Assistant to the Secretary of State for Research and Intelligence.
2. The only substantial objections are in the A-2 paper, and these were discussed with Mr. Quattlebaum over the telephone. As a result of this conversation, there were obtained from A-2 a few references to open sources which could be consulted to place the Russian Air Force in proper perspective, and these were furnished to Mr. Quattlebaum. With reference to the last paragraph of Mr. Quattlebaum's letter, it was stated to him that no reference should be made to either C.I.G. or any of the intelligence agencies.
